Visit with confidence.

Stay with peace of mind.

Unexpected medical bills can cost thousands,
... insurance costs just cents on the dollar.

Did you know ...

The Canadian government does not pay for hospital or medical services for visitors, immigrants, and returning Canadians.

If you or your family are visiting Canada, immigrating to Canada, applying for a Super Visa, or are a returning Canadian waiting to be covered by a Provincial Government Health Insurance Plan, you need health insurance while in Canada.
